

# Blue Prism® Decipher IDP Foundation

## Course Data Sheet

The Decipher IDP Foundation Instructor Led Training provides a comprehensive introduction to all the concepts and activities associated with intelligent document processing.

The course will cover all essentials of Decipher IDP so any trainee will be able to confidently configure Decipher IDP to achieve an optimized performance in document processing after successfully completing the course.

The course concludes with a consolidation exercise where you can demonstrate the skills you have learnt.

### Objectives

At the end of this course, you will be able to:

- Process a variety of documents in Decipher IDP
- Extract, analyse and understand data from a range of different sources using Decipher IDP
- Perform data verification
- Configure Blue Prism Enterprise to work with Decipher IDP

### Modules

This course contains the following modules:

- Introduction to Decipher IDP
- Decipher IDP Configuration Fundamentals
- Document Form Definition (DFD)
- Configuring a Document and Batch Types
- Decipher IDP Configuration
- Data Verification
- Configure Blue Prism to Work with Decipher IDP
